

## The Upper Moore County, NC Land Grant Project

*When this project began many years ago, I had one simple goal – build a small neighborhood for my ancestor, Everet Wallace, in hopes of discovering more information about him and his family. Many years later a small neighborhood has become one large puzzle with well over 1000 pieces. Researchers with Moore County, NC ancestors know that due to a courthouse fire in 1889 most early county court records, deeds, tax lists, etc. were destroyed making genealogical research infinitely more difficult. The only deeds that survived were ones that families re-registered after the fire so putting together a plausible neighborhood map seemed impossible. Fortunately, all original land grants were filed at the North Carolina Secretary of State's office in Raleigh and are currently located at the North Carolina State Archives for every county in the state. As of 2009, I've searched, photocopied, transcribed and indexed almost 1200 original land grants for the upper region of Moore County, NC and plotted them out using the incredible [Deedmapper software](#). If you have the Deedmapper program you can download all of the grants with maps including roads and watercourses at <http://www.directlinesoftware.com/pool.htm> and clicking on the NWMoore.gz link.*

*To help catalog these land records I created the Land Grant Registry and Land Grant Index.*

*This document will be helpful when viewing the MS Excel document titled "Upper Moore County, NC Land Grant Registry" which includes information on every land grant that I've cataloged. The "Registry" in turn will be helpful to consult when viewing the actual DeedMapper file.*

*Morgan Jackson*

### LAND GRANT REGISTRY KEY

#### **ID**

The ID number listed was created to assist in indexing the large number of grants. It is the only number that is used in the Index. ***It has no correlation to the DeedMapper file.***

#### **Name**

The full name of the grantee as it appears on the original land grant. The Index uses the more traditional version of the name, i.e. the name "Isam Wallis" might appear in the Registry while the traditional/correct spelling of "Isham Wallace" will appear in the Index.

#### **Acre**

Total number of acres that the grantee received from the State of North Carolina.

#### **Date**

The date used is the actual date the land was surveyed. The date the land was entered was generally a year or more before the survey and the date the land was granted was usually six months to a year after the survey was completed. I chose this date because it is the most consistent and is the only date in which the individuals (grantees and chain carriers) were actually present.

#### **Chain Carriers**

The chain carrier was an assistant to the surveyor and helped position the measurement chains. In most cases, the chain carrier was a relative, neighbor or close associate of the grantee.

### Location /Additional Info

Area used by the surveyor to describe the vicinity of the track of land. In most cases, a watercourse was used. The Additional Info was used to further define area, i.e. East of Flag Creek or Persimmon Branch of Flag Creek.

### Grant #

Actual land grant number used by the Secretary of State's office. Original grants can be located at the State Archives using this number. ***This number is also listed in the "ID" field of DeedMapper file.*** Letters preceding a hyphen and the grant number indicate that the land grant was issued in another county (B=Bladen County, C=Cumberland County, M=Montgomery County, O=Orange, R=Randolph). A zero preceding a hyphen and the grant number indicate a Moore County Land Entry that was not issued by the state, i.e. 0-123.

### Neighbors

Names listed in this section were denoted in the original land grant as neighbors or as owning land adjoining the surveyed property.

### **\*\*\*Author's notes**

The rows within the MS Excel document "Upper Moore County, NC Land Grant Registry" that are highlighted a bright yellow **cannot** be found on the Deedmapper MBL file.

It is also important to note that the names listed do not necessarily imply that each number corresponds to the same person, i.e. there were many entries for "John Smith" over a 150 year period of time and it is left up to the reader to determine which John Smith entries are applicable for their search.

Many people have asked about David Allison and the large amount of land grants that he received from the state of North Carolina. Allison was a land speculator who by all accounts never stepped foot in Moore County, NC. His agent, John Porterfield, applied for land grants for David Allison all across the state in the 1790's. He clearly speculated himself into massive amounts of debts and most of Allison's land ended up being sold at auction at the county courthouse. Allison died in a debtor's prison in Philadelphia, PA.

## LAND GRANT INDEX

The numbers listed below correspond directly to the "ID" number in the accompanying MS Excel file "Upper Moore County, NC Land Grant Registry." The key to the index is listed on the bottom of each page. A **bolded number** is listed when the person was the actual recipient of the land grant from the state of North Carolina. An underlined number is listed when the person was a chain bearer/chain carrier. A number that is not bolded or underlined is listed when the person was listed as a neighbor/owning adjoining land.
